SABIN IRAKIZA

SOFTWARE DEVELOPER || IT SUPPORT

PROFILE

I'm a dedicated Software Developer with a background in IT support, skilled in building responsive and user-friendly web applications, resolving complex technical issues, and ensuring optimal system performance and reliability.

WORK EXPERIENCE

Software Developer @ Posinnove

December 2024 — Present // Kigali, Rwanda - Remote

- Backend Development: Build scalable RESTful APIs with Node.js and Express, implement real-time features using WebSocket, and integrate third-party APIs.
- Data & Infrastructure: Manage relational databases with PostgreSQL, containerize applications using Docker, and ensure secure, high-performance systems.
- DevOps & Systems: Automate deployments via CI/CD pipelines and develop complete backend systems including user dashboards and admin panels.

Freelance Web Developer @ Self-Employed

March 2022 — Present // Kigali, Rwanda - Remote

- Full-Stack Development: Build modern, responsive applications using Next.js, Tailwind CSS, Shadcn UI, and Framer Motion for seamless user experiences.
- Backend & Infrastructure: Develop secure, scalable backends with Node.js, Express, and PostgreSQL; containerize apps using Docker.
- Deployment & Delivery: Implement CI/CD pipelines and deliver high-performance, client-tailored solutions with a focus on usability and reliability.

IT Support @ Gisenyi, Rwanda

2020 - 2021

- Provided technical support for hardware, software, and network issues, performed routine system maintenance, and resolved user problems while developing strong troubleshooting and customer service skills.
